The 8th May 1886.

The following statement of the total rain-fall during 1885, in each of the Taluk Head-quarters of the Province as distributed over the twelve months of the year, is published for general information. The rain-fall for the past year is also noted for comparison. It will be observed that the fall was on the whole comparatively much heavier than that of the previous year, *viz.*, 1884.

The total figures for some of the Sub-Taluks marked * show the quantity of rain-fall only for 5 months from August to December 1885, the information for the previous months as also for the year 1885 not being available.

Statement showing the monthly Rain-fall in the Province of Mysore for the year 1885.
